FROM THE EXECUTIVE DIRECTOR

Spring has arrived! It's so good to experience the change in seasons. The winter seemed extraordinarily long, partly because we had such an early Spring last year. It's a pleasure walking outside in the morning to hear the birds singing, not to mention not having to don a winter jacket any longer.

Our new home is progressing well. We anticipate to be completed by the end of May, a little later than we had anticipated. Nevertheless, we don't want to push too hard that it affects the quality and detail of the remaining work.

Each resident home area is looking very finished, with carpets being laid and many finishing details being attended to. Areas of concentration include the basement kitchen, installation of the elevators and completion of the ductwork, electrical, drywall and painting and finishing in the great room and café and front entrance. Landscaping is progressing well.

With the building being completed in May, we can anticipate moving people in approximately 5-7 weeks later, sometime in July. When we know the exact date for this, we will be sure to let you know.

WHITE MEADOWS FARM OUTING

Working as a PSW, I don't always get the chance to see the residents doing activities. Getting the opportunity to go to White Meadows Farm was a lot of fun for everyone and we all smiled and had a great time. When the music was playing, some residents had memories of their younger days when they were dancing with their spouses. Even though they couldn't get up to dance, they danced in their seats. Everyone enjoyed the food, especially the pancakes and the maple baked beans.

I'm very thankful to the activation department for inviting me to join the residents enjoying themselves in a different environment.

but their hearts forever.”*

Mother

Mother, yes Mother what a precious word that is you see,
It just lingers on and on and that is what my mother has been to me.
She tied up my hurts and dried away my tears, yes that is just oh so true.
Her patience and her loving ways were so indescribable, and that was not just a few.
For she gave herself so fully for all of us children from day to day,
And I never heard her grumble when difficult days did come along her way.
I am sure that this describes and speaks of a lot of mothers, you know.
So please do be thankful and your appreciation to her at all times show.
Yes while you still have a mother on this earth down here,
For you never know how long that she will be with you near.
So therefore thank God that you still have a Mother today,
And tell her that you love her sincerely, and say it without any further delay.
